「BROW & LASH BAR」

## LASH EXTENSIONS

### **What are lash extensions?**

Lash extensions are semi-permanent lashes that are applied individually to your natural lashes creating either a natural or dramatic look, your desired result will be discussed with your technician at the time of your appointment

### **What is the lash extension treatment process?**

Your natural lashes are prepared then your technician will individually apply the extensions, this is a calm and quiet treatment that or movement cause eyes to twitch and your technician required the eyes to be as still as possible. Customers often fall asleep during the process so prepare to be very relaxed

### **How long does the lash extension treatment take?**

Approximately 90 minutes depending on the amount of natural lashes the customer has as extensions are applied to each individual natural lash

### **How is a lash extension different to a lash lift?**

A lash lift uses your natural lashes to create the curl while lash extensions will give a more dramatic look

### **How long does a lash extension last?**

With the correct after care, lash extensions last between 6 to 8 weeks. As each lash extension is attached, they will fall out naturally along with the natural growth cycle of your lashes. A refill every two to three weeks is recommended for those who would like to maintain the extensions or professional removal when required if they are just for an occasion.

### **Is it safe?**

Yes lash extensions are safe as long as they are applied correctly and correct after care is followed. If you have sensitive eyes or are allergic to anything a patch test will be recommended

### **How to take care of your lash extensions**

There is a link to our After Care on the website

### **How much does it cost?**

Please refer to Artistic Beauty Brow & Lash Bar price list for cost
